EDUCATION

Poornima Institute of Engineering and Technology

2022-2026

Bachelor of Technology in Computer Science and Engineering

9 CGPA

Central Academy Sr. Sec. School

2022

Class 12th (Senior Secondary)

76%

EXPERIENCE

Trainee Software Engineer

Feb 2026 – Present

Biz4Group LLC

Jaipur, Rajasthan

- Built 15+ reusable UI components, accelerating feature development.
- Developed a RAG-based chatbot with knowledge-grounded responses.
- Built analytics pipelines on ClickHouse processing thousands of user events daily, enabling near real-time reporting and product insights.
- Delivered key features for a React Native fitness application used across Android, improving user engagement and retention.

PROJECTS

ProUp | *React, TypeScript, Express.js, PostgreSQL, Prisma, Socket.io, Tailwind CSS, Vite*

GitHub | Live Demo

- Developed a project management platform supporting task tracking, sprint planning, and team collaboration.
- Implemented real-time collaboration features including messaging, notifications, and commenting.
- Built productivity tools such as document editing, spreadsheets, calendars, and collaborative whiteboards to streamline team workflows.

NextPrompt | *Next.js, JavaScript, Tailwind CSS, MongoDB, NextAuth, Vercel*

GitHub | Live Demo

- Developed a prompt-sharing app with Next.js, MongoDB, and NextAuth for user authentication
- Enabled prompt tagging and real-time search functionality for better content discovery
- Styled UI with Tailwind CSS for responsiveness and deployed on Vercel with CI/CD
- Onboarded 10+ users to create, edit, and categorize prompts

GitGud | *Next.js 15, TypeScript, Tailwind CSS, MongoDB, Gemini API, Clerk, GitHub API*

GitHub | Live Demo

- AI-Powered OSS Mentor: Developed a platform to help developers solve "Good First Issues" through guided code analysis and an integrated workspace.
- IDE Workspace: Architected a full-stack interface featuring a dynamic file tree, Monaco code editor, and real-time AI chat for context-aware debugging
- Workflow Automation: Integrated GitHub API to automate repository forking, branch management, and PR submissions, powered by Gemini 3 Flash.
- Secure Auth Storage: Implemented GitHub-only OAuth via Clerk and leveraged MongoDB Atlas for persistent AI chat history.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML, CSS, SQL, Python, C++, C

Web Development: ReactJS, Next.js, React Native, NodeJS, ExpressJS, Tailwind CSS, REST APIs, PostgreSQL, MongoDB, Firebase Firestore, ClickHouse

Tools & Utilities: Git/GitHub, Prisma, Payload CMS, Postman, Vercel, OpenAI API, RAG, Prompt Engineering
